### DETAILED ACTION

Claims 1 - 20 are pending. Independent claims are 1, 4 - 6, 9 - 11, 14 - 16, 19, 20.

#### *Allowable Subject Matter*

The following is an examiner's statement of reasons for allowance:

Claims 1, 4, 5, 6, 9, 10, 11, 14, 15, 16, 19, 20 are allowed based on the following:

The prior art of record, considered individually or in combination, fails to fairly show or suggest: (1) generating, at a client element by a first client application, an XML file that includes XML tag information that corresponds to attribute values for each property of a plurality of properties for one or more components that are supported by the router, wherein **the XML file is generated based in part on command line interface (CLI) definition files corresponding to each of the one or more components** and (2) generating, by the client element, **an XML request based on the parameters of the request from the client application that is not XML-aware**, wherein the XML request is generated using the XML tag information in addition to the other limitations in a manner as recited in claims 1 - 20.

Prior art of record does not fairly show or suggest the following steps:

generating, at a client element by a first client application, an XML file that includes XML tag information that corresponds to attribute values for each property of a plurality of properties for one or more components that are supported by the router, wherein the XML file is generated based in part on command line interface (CLI)

definition files corresponding to each of the one or more components;  
receiving, at the client element from a second client application, a request that  
conforms to a table-based data model to perform an operation on management data  
maintained by the router,  
generating, by the client element, an XML request based on the parameters of the  
request from the client application that is not XML-aware, wherein the XML request  
is generated using the XML tag information;

Claims 2, 3, 7, 8, 12, 13, 17, 18 are allowed due to allowed base claims 1, 4, 5, 6, 9, 10,  
11, 14, 15, 16, 19, 20.

So as indicated by the above statements, Applicant's arguments have been  
considered persuasive, in light of the set of claims with limitations as well as the  
enabling portions of the specification. The dependent claims further limit the  
independent claims and are considered allowable on the same basis as the  
independent claims as well as for the further limitations set forth.

Any comments considered necessary by applicant must be submitted no later  
than the payment of the issue fee and, to avoid processing delays, should preferably  
accompany the issue fee. Such submissions should be clearly labeled "Comments on  
Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kyung Hye Shin whose telephone number is (571)272-3920. The examiner can normally be reached on 9:30 am - 6 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tonia L. Dollinger can be reached on (571) 272-4170. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
